

**Premium Door &
Window Hardware
Fittings**

CRAFTED FOR PERFECTION

**2026
DESIGN
PORTFOLIO**

Company Profile

Overview :

Atul Brass Works has been working in the doors and windows hardware industry since its establishment in 1963, with over six decades of expertise, the company has built a reputation for delivering high-quality, durable, and aesthetically pleasing hardware solutions under its renowned brand, **etts®**.

Products and Services :

The company specializes in designing and importing a comprehensive range of hardware products for doors and windows.

Key Strengths :

Quality Craftsmanship : Each product is crafted with precision using high-grade materials, ensuring superior durability and performance.

Innovative Designs : **etts®** is known for its modern yet timeless designs, catering to diverse architectural styles and customer preferences.

Customer Trust : Atul Brass Works has cultivated long-standing relationships with clients, becoming a trusted partner for homeowners, architects, and builders.

Legacy and Vision :

Atul Brass Works has remained committed to excellence since its inception. The company continuously strives to innovate and expand its product portfolio, ensuring it stays ahead in the competitive market. With a deep-rooted legacy and a forward-looking approach, Atul Brass Works aims to uphold its position as a leader in the hardware industry while catering to evolving customer needs.

Introducing Next Generation Self Adjusting Sliding System [Left-Right & Up-Down]

- ✂ Telescopic Sliding System
- ✂ Synchronise Sliding System
- ✂ Sliding Folding System
- ✂ Single Door Sliding System

Upgrade your sliding door's performance with our high-quality Auto Adjustable Sliding Door Roller Wheel, designed for smooth, silent, and effortless operation. Engineered for convenience and durability, this roller wheel features automatic left-right and up-down adjustability, ensuring optimal alignment and smooth movement regardless of door size or weight.

Features :

- ✂ Auto Adjustable Design : Self-aligning mechanism adapts to slight shifts in the door's position both horizontally and vertically, reducing the need for manual adjustments.
- ✂ Smooth Operation : Precision bearings ensure quiet and fluid movement, minimizing resistance and noise during opening and closing.
- ✂ Durable Construction : Made from corrosion-resistant steel and high-strength nylon wheels for long-lasting performance in various environments.
- ✂ Upgrade today and experience the ease of automatically balanced sliding doors with our advanced roller system.

Self Adjusting Sliding Wheel

Next Generation Sliding Door System

Key Innovations:

- ✂ Self Adjusting Horizontal & Vertical Sliding Wheel
- ✂ Glide with Precision - Adjusts Itself, Moves Like Magic
- ✂ Effortless Sliding
- ✂ Silent. Smooth. Auto-Adjusting Roller Perfection

To Our Valued etts® Clients

Thank You for Choosing Us! for your aluminium and uPVC door and window solutions. Your trust in our craftsmanship is the foundation of everything we create. Each project you entrust to us strengthens our commitment to deliver refined design, enduring quality, and seamless functionality.

At etts® we consider every client a part of our extended family. Your trust allows us to build not just frames and systems, but long-lasting relationships founded on quality and reliability. We value the opportunity to serve you and thank you for making etts® a trusted name in architectural solutions.

As we move forward, we promise to keep delivering the finest products and service experience.

We own our success to all our valued customers who have placed their confidence in us and thank you for their continue patronage.

Our Promise

At etts® we believe hardware is more than metal — it's the strength behind every space.

Every Locks, Hinges, Handles, Rollers, Friction Stay, and others fitting is designed with precision and passion, built to perform beautifully for years to come.

Crafted with Care

Trusted for Quality

Inspired by Innovation
